

JOANNA BRIGGS INSTITUTE

CLINICAL LEADERSHIP WORKSHOP

Unlock your leadership potential!

The Clinical Leadership Workshop provides participants with practical techniques to create a more positive, personal and professional culture back in their workplace.

This dynamic and transformative workshop is open to clinical leaders and leaders-to-be from all healthcare disciplines and is based on the best available evidence regarding clinical leadership.

During the one-day workshop participants are helped to identify strategies that will assist in managing difficult behaviour, building productive teams and change management, thereby enabling effective leadership of projects and people.

“I really liked how practical this course was - it touched on theoretical models and ideas of leadership, and conflict resolution but focussed more on how they can be effectively implemented which is really important.”

See reverse for dates and more information.

JOANNA BRIGGS INSTITUTE

Keen to advance to leadership but
feeling under-prepared?

Supervising others already but
feeling overwhelmed?

Our facilitators guide participants through contemporary models and tools to enable them to develop understanding and strategies related to clinical leadership in health care using real world examples.

The Clinical Leadership Workshop involves a mix of facilitator-led group discussion, guided learning, personal reflection and analytical exercises to equip participants with strategies to apply in their own workplaces.
